CAREER OBJECTIVES

I'm an college undergraduate student currently pursuing a bachelor of science in information technology who's interested in how products are built and improved. I enjoy understanding what users need and finding simple ways to solve problems. I'm still learning, but I'm eager to grow and gain real experience.

STRENGTHS AND EXPERTISE

- Ticketing Systems (basic knowledge)
- Database Basics (MySQL / SQL)
- Canva (if you create simple designs)
- MS Office & Google Workspace
- Software Installation & Configuration
- Responsive Web Design
- Connecting PHP to MySQL
- Problem-Solving
- Logical Reasoning
- HTML, CSS AND PHP
- Know how to use AI
- Can use AI as an advantage

- C#
- Java
- Python
- bootstrap
- Basic debugging skills

CERTIFICATION AND ACHIEVEMENTS

THE EFFECTIVE WAYS IN WRITING A RESEARCH PROIPOSALS   **MARCH 8, 2023**

Through this seminar, I learned the importance of having a clear research topic, understanding the problem you want to solve, and organizing ideas properly. I also learned how to write a strong introduction, create clear objectives, and support my proposal with reliable sources. The seminar helped me understand how to structure a proposal professionally and present my ideas in a more confident and organized way.

BRING IT ALL TOGETHER : HOW TO INTEGRATE FINDINGS AND COMPELLING CONCLUSIONS IN CHAPTER 4 AND 5 OF THE IT CAPSTONE PROJECT   **APRIL 3, 2023**

Through this seminar, I learned how to properly organize and interpret the results of my study in Chapter 4, and how to turn those findings into clear and meaningful conclusions in Chapter 5. I now understand how to connect data to insights, explain what the results mean, and present recommendations based on evidence. This helped me see how important it is to make my capstone clear, logical, and aligned with my research objectives.

STATISTICAL DATA ANALYSIS UNLOCKING THE POWER OF SPSS   MARCH 17, 2023

Through this seminar, I learned how to use SPSS to analyze data more accurately and efficiently. I gained a better understanding of how to input data, run statistical tests, and interpret the results. The session helped me see how SPSS can make data analysis easier, more organized, and more reliable. This knowledge will help me handle research data with more confidence and create stronger, evidence-based conclusions.

STARTING THE RESEARCH JOURNEY ; BUILDING THE FOUNDATION FOR ACADEMIC AND SOCIAL IMPACT   AUGUST 3, 2025

Through this seminar, I learned how important it is to start research with a clear purpose and a strong foundation. I now understand how to choose a meaningful topic, identify a real problem, and explain why the study matters both academically and socially. The session helped me appreciate how research can create positive change and how careful planning at the beginning makes the whole research process smoother and more meaningful.

EDUCATION

Maligaya Elementary School

Ilang-Ilang, Quezon City, Metro Manila, Philippines

St. Vincent de Paul Academy of Novaliches, Inc.

Block 9, Lot 32 Atrium St. Extension, Maligaya Park Subdivision, Pasong Putik, Novaliches, Quezon City, 1123, Metro Manila, Philippines.

Maligaya High School

Ilang-Ilang, Quezon City, Metro Manila, Philippines

Bestlink College Of The Philippines

1071 Brgy. Kaligayahan, Quirino Highway, Novaliches, Quezon City
